

WHAT IS CLAIMED IS:

1. A camera comprising:
a communication device which allows radio communication with other unit; and
a radio antenna,
wherein a conductive component previously provided for the camera and insulated from a camera housing but not electromagnetically shielded is jointly used as the radio antenna.
2. The camera according to claim 1, wherein the conductive component includes any one of a hot shoe to which an accessory is set, a reflector of a flash, a strap, a strap setting member, a ring member around a photographing ring, a camera operating button, a camera operating dial, a camera operating lever, a lens cover, a cover of a battery, and a cover of a recording-medium storing section.
